LIBRARIES OR SMALL PARCELS OF BOOKS PURCHASED FOR CASH.

✂ TO THE READER. ✂

The Tracts in this Catalogue are arranged in Chronological order. All are unbound (with very few exceptions), and the sizes are 8vo, *et infra*, when not otherwise indicated.

In consequence of the small prices they are marked, and the labour and expense already involved in cataloguing, it is requested that orders be accompanied by a remittance.

\* \* These Tracts are different from those in my previous catalogue of nearly 2,000 items, many of which are still on sale.

---

“ All these, and many other causes have contributed to make pamphlets and small Tracts a very important part of an English Library, nor are there any pieces upon which those who aspire to the reputation of judicious Collectors of Books, bestow more attention or greater expense ; because many advantages may be expected from the perusal of these small productions, which are scarcely to be found in that of larger works.”

—*Dr. Johnson on the Origin and Importance of Fugitive Pieces.*

---

“ From Pamphlets may be learned the genius of the age, the debates of the learned, follies of the ignorant, the *bévues* of government, and the mistakes of courtiers. Pamphlets are as modish ornaments to gentlewomen's toilets as to gentlemen's pockets, they carry their reputation of wit and learning to all that make them their companions.—*Miles Davies' Icon Libellorum.*
